PORT-A-TANK

Large capacity in a small footprint

Quick to deploy

Light to take into the field

The **PORT-A-TANK** offers a quick and efficient solution for storage of water or other liquids where it is imperative to be able to store a large volume in a small space. It consists of a liner in a compact folding frame.

The open design provides the capability to dip into the tank or have multiple users.

The robust frame is made from marine grade aluminum. It folds to a relatively small size. It is very fast to deploy and is easy to transport by hand or by helicopter.

The 22oz reinforced PVC tank liner is RF sealed to give strong durable watertight seams.

The **PORT-A-TANK** fabric may be kept permanently mounted to save time in setting up the tank.

- | | |
|--|-----------------------------|
| USES: Fire fighting | Portable test tank |
| Non potable water storage for irrigation | Temporary fish holding tank |
| Oil spill clean | Liquid fertilizer mixing |

OPTION: 2" hose outlet can be installed into one side of the tank for draining purposes.

STANDARD SIZES:

MODEL	CAPACITY		DIMENSIONS				WEIGHT	
	Imp.	Ltrs	Open		Folded		Lbs	
	Gal.		L x W x H	L x W x H	L x W x H	L x W x H		
PT 4x4x24	200	900	4'x4'x24"	1.22x1.22x.61	4' x 12" x 24"	1.22x.3x.61	20	9
PT 8x8x30	1,000	4500	8'x8'x30"	2.44x2.44x.76	8' x 12" x 30"	2.44x.3x.61	55	25
PT 10x10x30	1,500	6800	10'x10'x30"	3.05x3.05x.76	10' x 12" x 30"	3.05x.3x.61	70	32

All capacities shown are based on 100% of total volume with the tank on level ground.
